# **Easy Content Creation and Management Solution**

Standard Essential SM3B Series

# **Key Features**

### Smart Platform

### Quad Core SoC\*

\*SoC : System-on-Chip

#### webOS 2.0

The webOS 2.0 platform provides powerful and convenient tools to create content, including app development materials and support for various operating systems (Windows, Linux, Mac OS).

http://developer.lge.com/webOSSignage

## Built-in Wi-Fi

#### Mirroring

Content sharing is more convenient on a Wi-Fi network.

### **SoftAP**

The SM3B with SoftAP software can operate as a wireless access point for mobile devices.

#### Simple Installation

Installation has been simplified by removing the external media player and Ethernet/RS232C cables.

Wi-Fi: (removing Ethernet or RS232C cables) 802.11n (2.4GHz/5GHz)

# **Easy Content Creation and Management Solution**

# Standard Essential SM3B Series

### **Screen Sizes** 55"/49"/43"

#### SM3B Series

- Brightness: 350 cd/m<sup>2</sup>
- Bezel: Top/Left/Right 11.9mm (Bottom 18.0mm)
- Depth: 38.6mm
- Interface : HDMI/DVI/RGB/RJ45/IR, Daisy-Chain (DP, RS232C)

# **Key Features**

## **Enhanced Design Configuration**

#### Slimmer Bezel & Depth

The thinner bezel & depth allows a perfect fit for a sleek look.

#### **Detachable Logo**

The detachable logo allows for installation in the desired orientation in landscape or portrait mode.

#### Cable Management

The well-organized cable terminals in the back optimize available space.

#### **Built-in IR Receiver**

This receiver is very space efficient with features that are detachable and adjustable to suit your environment.

#### **Maintenance Efficiency**

#### **Dust & Humidity Protection**

Circuit board reliability is enhanced with conformal coating that protects against dust, iron powder, humidity and other harsh conditions.

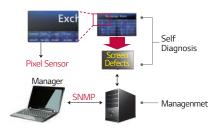

#### **Advanced Failover**

Enables content in the internal or external memory to be displayed without dead spots when none of the external inputs is working. The monitor performs the signal switching automatically.

#### **Screen Fault Detection**

Detects screen failure and sends an alert email via SuperSign C SW or monitor itself.

### Supportive Convenience

#### Sync Mode

With time sync setting, signage displays in a DMB<sup>1)</sup> group can display content at the same time frame. And all the signage displays set as slave adjust content starting time to master's starting time with content sync setting.

#### **BEACON**

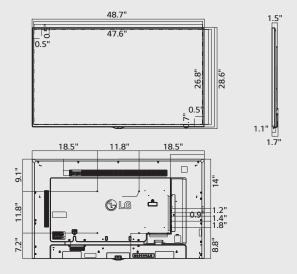

With BEACON and Bluetooth Low Energy (BLE) supported by SM3B, retail stores can provide coupons and information in real-time.
